Summary

Aspiring AI/ML Engineer with hands-on experience in developing Machine Learning, Computer Vision, and full-stack applications. Skilled in Python, Scikit-learn, OpenCV, React, Fast-API, and Flask, with a strong interest in building practical AI-powered solutions and continuously improving problem-solving skills.

Education

KIET Group of Institutions

Ghaziabad, India

Bachelor of Technology in Computer Science Engineering (AI&ML)

Technical Skills

Programming Languages: Python, C, Java, JavaScript, Bash

Machine Learning & AI: NumPy, Pandas, Scikit-learn, OpenCV, Computer Vision

Web Development: React, FastAPI, Flask, HTML, CSS, JavaScript

Tools & Platforms: Git, GitHub, VS Code, Google Colab, Figma

Projects

House Price Prediction Platform

GitHub

2026

- * Developed a full-stack Machine Learning application for predicting house prices based on property and location features.
- * Built an interactive React frontend and FastAPI backend to provide real-time house price predictions.
- * Implemented location-based City and ZIP code selection to improve user experience and prediction workflows.

QR Scanner Application

GitHub

2026

- * Developed a web application for scanning QR codes directly using a device camera.
- * Built a Flask backend for processing and securely managing scanned QR code data.
- * Designed a responsive frontend using HTML, CSS, and JavaScript for a smooth user experience.

Anomaly Behaviour Detection System

GitHub

2026

- * Developed a real-time monitoring system using OpenCV to analyze webcam-based facial and eye activity.
- * Implemented face and eye detection to identify possible distraction or abnormal behaviour based on eye visibility.
- * Applied Computer Vision techniques for real-time video processing and behavioural monitoring.

Positions of Responsibility

Innogeeks Club

Coordinator

KIET Ghaziabad

2026 – Present

- * Participating in AI/ML learning sessions and collaborative technical activities.

Creative & Management Club

Event Coordinator

KIET Ghaziabad

2026 – Present

- * Assisted in organizing college events and managing event logistics.

Certifications

AWS Certified AI Practitioner (AIF-C01)

Buildathon Certificate (Healthcare Domain)

Participated in many Hackathons across different colleges
